"Dent Magic was very helpful in getting Scotty's through this hail storm smoothly and professionally. Everyone kept our best needs in mind while teaching us a lot about the PDR process; everything from dealing with insurance companies to repairs. Dent Magic took a load off of our shoulders...professional, talented, caring people...wish I had more people around like them. They made hail a lot cooler."

"Progressive Insurance is our main DRP and I have gotten many compliments from them regarding how quickly we were able to move PDR through the shop and how well it was done. Kevin, Jerry, Ben and Will were great to work with. They helped write estimates and explained the PDR process to our customers. Thanks again for all your help."

Jim, Doug and Chad have been awesome and the repairs they have done have exceeded the owner's expectations. The set-up Derrick gave me with the estimating tools and professionalism has made this a smooth relationship."
